PPO Benefit Changes in 2019

CalPERS will change and expand benefits for the PERS Select, PERS Choice, and PERSCare plans:

- PERS Choice and PERSCare Basic co-pays for urgent care and specialty visits will increase to \$35. The co-pay to visit your personal physician remains at \$20.
- PERS Select Basic will adopt a value-based insurance design. The approach aims to improve quality and lower costs associated with health care through cost incentives. Co-pays for urgent care and specialty visits will increase to \$35. The co-pay to visit your personal physician will reduce to \$10.

- The PERS Select deductible will increase to \$1,000 for individual or \$2,000 for family. You may earn credits to reduce your deductible by obtaining a biometric screening, a flu shot, a non-smoking certification, a second opinion for elective surgeries, or engaging with a nurse manager for disease management. Each action reduces your deductible by \$100.
- SpineZone, an online back and neck pain program, and Wisdom, a study to optimize breast cancer screening, will be available to PPO members.

Important Health Enrollment Reminders

- Be aware that a medical group ending its contract with a health plan does not create a qualifying event to change plans outside of Open Enrollment.
- You will receive new health plan ID cards if you change your health plan or enroll for the first time.
- Carefully review your pay warrant to ensure the correct health plan premium deduction was made when you change health plans, enroll for the first time, or add/delete dependents.
- If you change plans during Open Enrollment and you don't see the correct deduction applied by your February warrant, contact your employer's personnel specialist or health benefits officer in human resources (or CalPERS, if you are a retiree).
- If you change health plans, do not continue to use your previous health plan after December 31, 2018.
